Illuminare è arredare: la giusta illuminazione è importante dal punto di vista estetico e funzionale per la valorizzazione degli spazi.
La lampada LOGO è personalizzabile e questo ti consente di valorizzare il tuo stile e la tua personalità in tutti gli ambienti.

Nella confezione di LOGO è contenuta una dima di plastica trasparente (A) per poter ritagliare stoffe o carta (stampabile su un formato A3) da inserire sotto la calotta di plastica della fonte luminosa, permettendone così la personalizzazione.
La confezione comprende anche una fascia decorativa neutra (B) in uno speciale tessuto (pre-inserito) della dimensione corretta (stessa dimensione della dima di plastica). Questa fascia, inserita a contatto con la lampada, prima della carta opportunamente ritagliata (E), conferirà matericità ed eleganza a qualunque materiale vorrete usare per la personalizzazione.

Lighting is furnishing: the right lights are important from the aesthetic and functional point of view in order to enhance spaces.
The lamp LOGO is customizable, and that allows you to make the most of your style and your personality in all the environments.

LOGO comes with a clear plastic template (A), in order to cut fabric or paper (printable on A3) to be inserted under the plastic cover of the light source, thus allowing customization.
The package includes a special fabric neutral decorative band (B) (previously placed) whose dimension is correct (same dimensions as the plastic template). Such band, in contact with the lamp, before your paper appropriately cut (E), gives material consistency and elegance to any material you will want to use for customization.
