

PORCELLANE
DI SARONNO

EXCELLENCE TAKES SHAPE

New collection line 2026

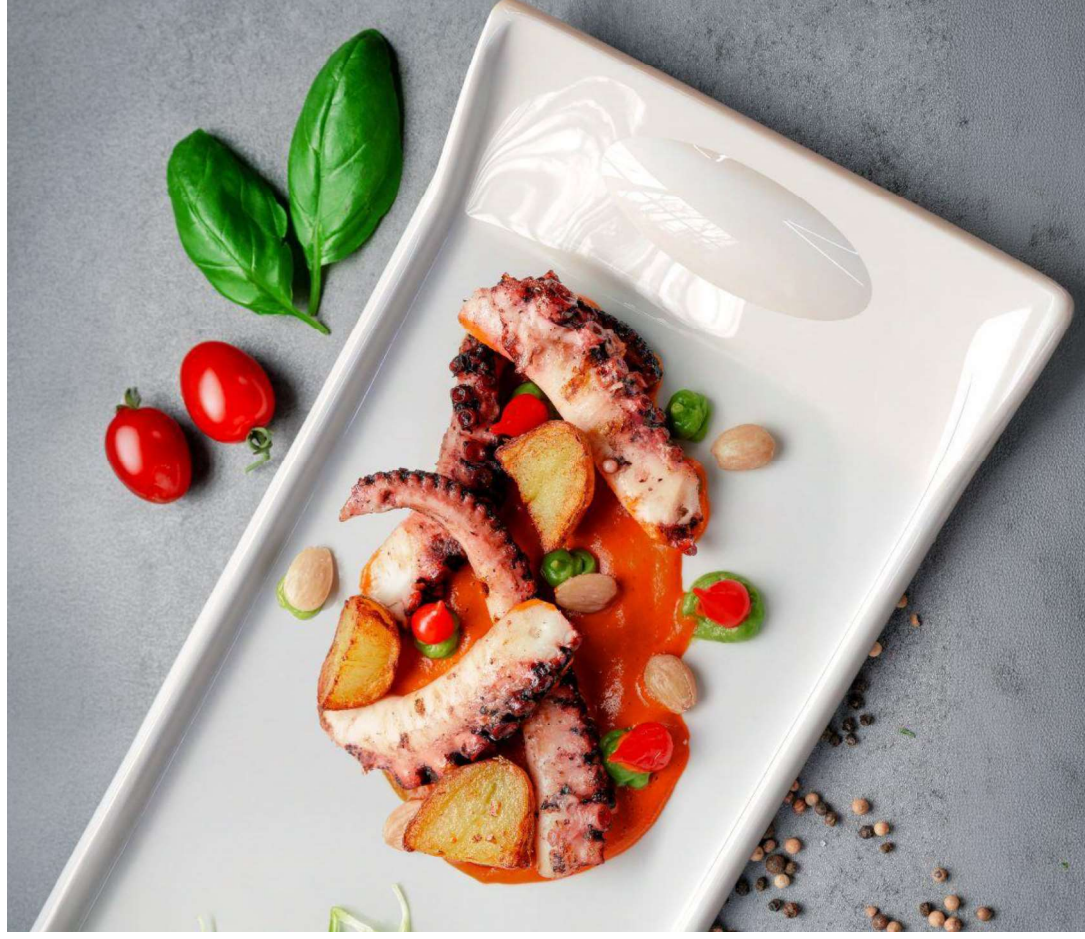

The Soul of MPS

Not just design, but superior performance for catering professionals.

Products suitable for oven, microwave, freezer and thermal shock resistant.

Single-firing and double-firing processes that ensure durability and hygiene.

Stackable design and maximum ease of cleaning (dishwasher safe).

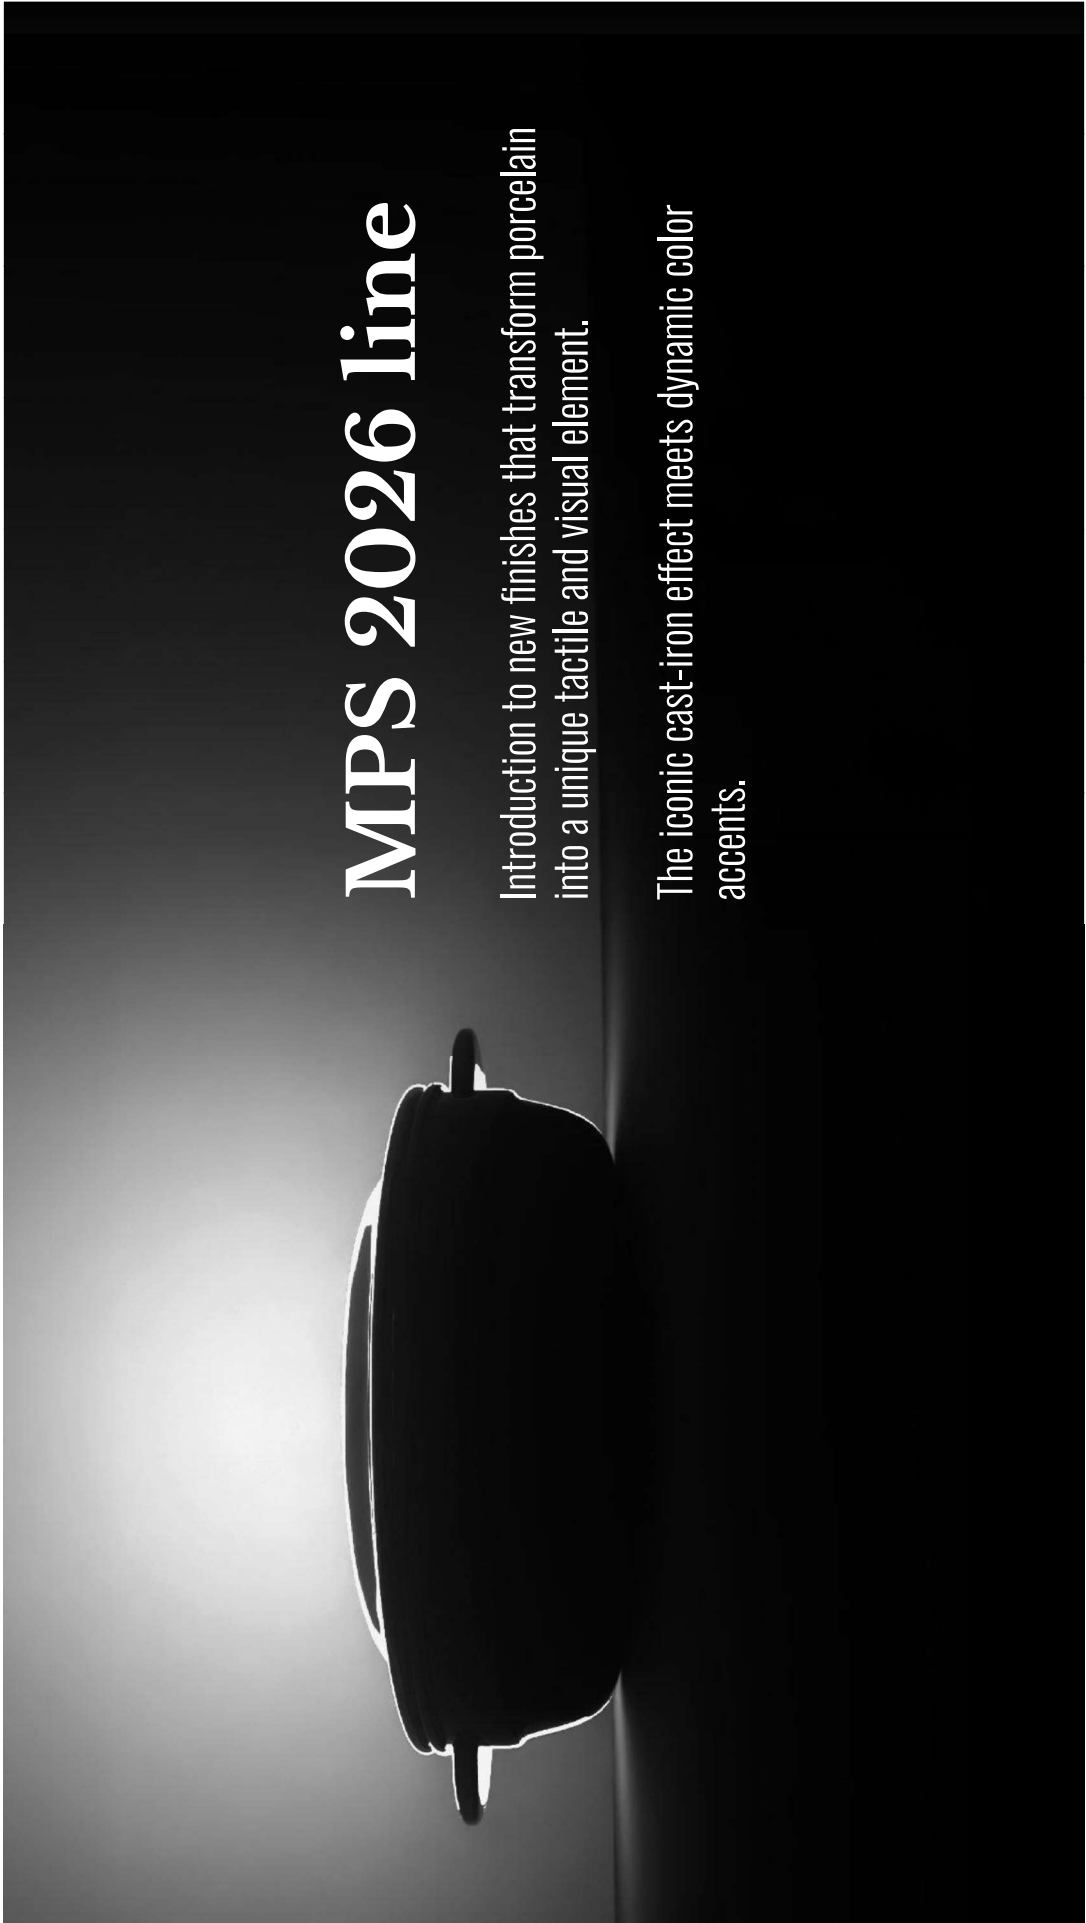

Matter and color

In 2026, the table is no longer just about aesthetics, but a sensory experience. We are moving away from "cold perfection" to embrace authenticity.

MPS responds with matte finishes and solid colors that enhance the chefs' creations.

MPS 2026 line

Introduction to new finishes that transform porcelain into a unique tactile and visual element.

The iconic cast-iron effect meets dynamic color accents.

New for 2026

The iconic cast-iron effect meets dynamic color accents
